

## DOMESTIC / COMMERCIAL GAS ENGINEER

Central London

from £30,000 TO £33,000 (Negotiable) Plus Callout Rota Payments, Company Vehicle, Mobile Phone, PDA, Uniform, 25 Days' Holiday, Accident/Sickness Insurance

DMG Delta is a well established and rapidly growing organisation, dedicated to service and maintenance of domestic and commercial heating/gas appliances. We have a prestigious variety of contracts covering London and the Home Counties. An opportunity has now arisen for a Mobile Service Engineer to join the team.

Joining an established team, in this role you will be responsible for carrying out service and repairs on commercial heating, gas and oil appliances. For the right person, the company offers ample scope for long term career progression.

Working with a diverse range of prestigious clients, your role will involve travelling to client sites predominantly throughout Central London (80% of your time) and within the M25 (20%).

Your duties will include

- Working as part of an emergency response team on a 24 hour rota basis
- Maintaining set standards in compliance with the Health and Safety at Work Act 1974 and other relevant legislation
- Ensuring all on-site quality assurance procedures are adhered to
- Helping out other trades (where required)
- Providing accurate reporting information for further repairs or installation

To be considered for this position you must have:

- Proven experience in a similar gas engineering role
- Commercial ACS qualifications OR domestic ACS qualifications

An OFTEC qualification would be beneficial to your application, as would any multi-skilled experience or knowledge of building services.

You should also be an excellent communicator with the ability to fault find and diagnose on commercial gas and oil appliances. A great work ethic, the ability to work in a team, and a willingness to take on additional responsibility will also be required.

To apply for this role, please either download the application form from this site, or contact Karen Hammond to request an application form via one of the following methods:
